

Using proofSIGN with Proofmaster

1. Locate the file 'proofSIGN.pm' from the proofSIGN disc in the 'RIP Files' folder.

Copy the file into the following folder:-

PC

C:\Program Files\Proofmaster\Tickets

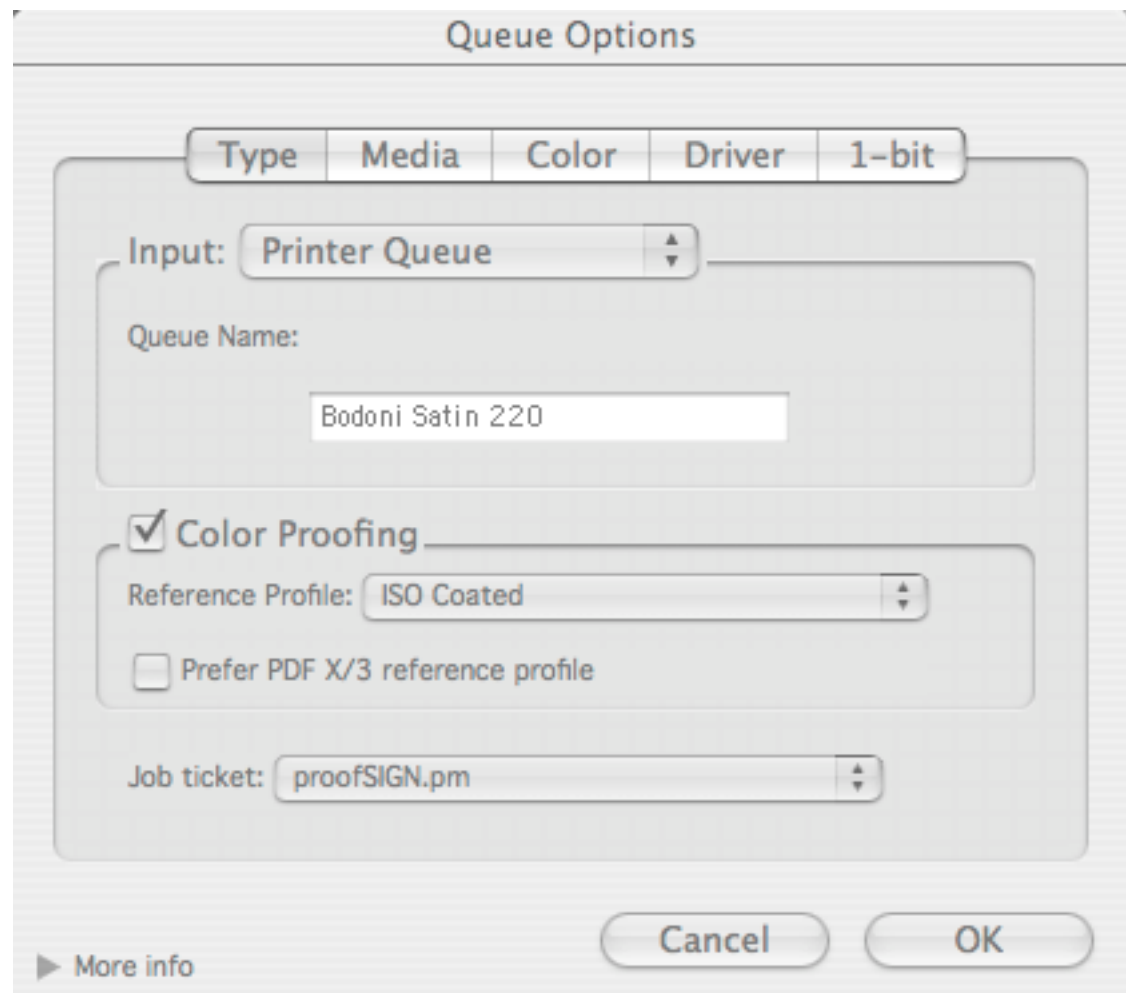

MAC

Macintosh HD : Applications : ProofMaster : Tickets

2. To activate the new proofSIGN strip.

a) Restart the RIP

b) Double click on the Queue which you will be using to verify your files.
This will open the Queue Options screen. (example below)

c) If you drop jobs directly onto the Proofmaster queue, you can configure the use of the proofSIGN verifier by selecting the proofSIGN option in the 'Job Ticket' drop down box. (example below)
